Second Notice

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

Newmar Corporation has decided that a defect which relates to motor vehicle safety exists in specific motor homes.

Certain motorhomes may have a refrigerator travel latch that when the doors close the door lock could be activated without the user's knowledge.

Correction: Newmar will send a new replacement door latch that cannot be inadvertently locked but can only be activated from the exterior of the refrigerator after the door is closed.

These motor homes require immediate service. Continued use poses a potential safety hazard.

The Safety Risk

If the latch accidentally locked the door shut there are no means to open it from the inside. This could potentially cause entrapment/injury to an individual.
