Service Information

Audi dealers that do not choose this option will have the Worldwide VAG database (no USA/Canada models) installed. This option installs European models, model years, and model descriptions such as Bora, A2, Vento, Polo, etc. and is missing U.S. models such as Jetta and Eurovan. Model years will not match up with US model years. **Audi dealers that have questions regarding installation of Hunter specification update to VAG1944B or VAS6292 Aligners (after update has been downloaded) can call their local Hunter service representative.**
