**CONDITION**

Some 2015-2017 Sienna vehicles with power or manual 3<sup>rd</sup> row seats, may experience a condition where the front leg/legs, may not latch correctly after being returned from the stowed position. The front leg/legs may be misaligned with the striker causing it to be in front of, behind or contacting the striker, but not latched correctly.

**RECOMMENDATIONS**

This issue is currently under investigation. Please create a TAS case and contact Technical Assistance (TAS) to submit details on any vehicle identified matching the condition described in this document prior to repair.

If you are attempting to contact TAS on a weekend or TMS holiday, continue with diagnosis and submit the requested information on the next available work day. Retain all replaced parts and technician notes for possible review with TMS TAS Product Engineer.
