RE: 2018 Accord License Bracket Sticker Missing

This message is solely directed to Honda dealership personnel; please handle accordingly.
Print this i/V message and provide a copy to the Shop Foreman and all Service Advisors.

To Dealer,

Your dealership will soon start receiving your shipment of 2018 Accords. Early vehicles may be missing the information sticker on the front license bracket. This sticker warns customers not to use accessory brackets that may block the radar, and refers them to their owner’s manual for the same information. A roll of stickers with installation instructions will automatically be sent to your Service Manager’s attention. Make sure the sticker is applied to all brackets before releasing the vehicle to a customer. This includes brackets that are not installed on the vehicle.

Click [here](#) for a picture of the sticker you will receive.

If you need to order more stickers (part No. Y1135, 50 Stickers), contact Helm: 1-800-782-4356.

For instructions on how to apply the stickers, please click [here](#).

Thank You
