

Warranty Communication

Audi Warranty

Number: AWC-17-03

**Subject: TDI Monitoring Program “Campaign 23T4” for
Generation III 2.0L Phase I Emissions Modification**

Date: Jan 12, 2017

Dealers: U.S., Puerto Rico

This document conveys general
Warranty information.

Audi of America is requesting your cooperation in supplying us with technical information related to the repair process for vehicles on which the TDI Generation III 2.0L Phase 1 emissions modification is being performed, “Campaign 23T4”. Audi will use this information to ensure prompt analysis and resolution of any emerging concerns.

Issues related to ODIS should be directed to the ODIS Diagnostic Support Group at 888.896.1298, along with a feedback via the ODIS tool (refer to document AOS-15-03 for ODIS feedback set-up instructions). ODIS issues will still be reviewed as part of the TDI Monitoring Program.

If you experience any issues while performing “Campaign 23T4”, or after the software update for the TDI Generation III 2.0L Phase 1 Emissions Modification, follow the process below to open a Technical Assistance Center (TAC) ticket.

- Note: TAC authorization is not required to perform the software update; it is only required if an issue occurs while the update is being performed (for example, if update fails, SVM will not update control modules, etc.) or if an issue occurs after the software update.

If an issue is experienced during or after the software update:

1. Create a phone or web contact in the TAC system. Select concern group “Campaign-TDI Emissions Concerns”.
2. Contact TAC for further instructions. Be sure to record the TAC case number on the repair order.
3. After the concern is corrected, findings must be reported before the TAC ticket can be closed.

Warranty reimbursement for the TDI Monitoring Program for 2.0L Phase I Emissions Modification will continue until Audi Warranty communicates an end date to dealers.

Questions or concerns may be directed to Audi Warranty at 866.677.2834 or AudiWarranty@audi.com.
