2013-2017 NISSAN; CLEANING FRONT OR REAR COMBINATION LAMP ASSEMBLIES

APPLIED VEHICLE: 2013-2017 Nissan

SERVICE INFORMATION

When cleaning the “Front Combination Lamp” (Headlight housing) or “Rear Combination Lamp” (Taillight housing) assemblies:

- Use only a mild soap (special vehicle soap or general purpose dishwashing liquid), mixed with clean lukewarm (never hot) water.
- Use a sponge or soft rag.

DO NOT USE:

- Strong household soap, strong chemical detergents, gasoline or solvents.

NOTE: Some car washes, especially brushless ones, use some acid for cleaning.

- The acid may react with some plastic vehicle components, causing them to crack.
- Always check with your car wash to confirm that acid is not used.

Nissan’s New Vehicle Limited Warranty does not cover physical damage to headlight or taillight housings caused by strong household soap, strong chemical detergents, gasoline or solvents.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
