## 2017 SENTRA; INFORMATION FOR ORDERING REPLACEMENT EVAP CANISTER

**APPLIED VEHICLES:** 2017 Sentra (B17)  
**APPLIED ENGINE:** MRA8DE

### SERVICE INFORMATION

If the EVAP canister is replaced for any reason, you must use the information in this bulletin to determine the correct replacement part number.

First, determine the vehicle emission specification using FAST (see page 2).

Then select the replacement EVAP canister using the following table.

EMISSION TYPE	MODEL CODE	PART NUMBER
CAL	11 <sup>th</sup> -13 <sup>th</sup> digits are EVA	14950-4BC0A
50 State	11 <sup>th</sup> -13 <sup>th</sup> digits are <b>not</b> EVA and 18 <sup>th</sup> digit is N	14950-4BC0A
FED	11 <sup>th</sup> -13 <sup>th</sup> digits are <b>not</b> EVA and 18 <sup>th</sup> digit is L or -	14950-1KC0A

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

## Determine Emission Specification

1. Enter the VIN into FAST (see Figure 1).
2. Use the Model code (see Figure 1) to determine the vehicle emission specification as follows:

**NOTE:** The model code includes dashes as part of the normal sequence. To locate the correct positions, dashes must be counted.

- If the Model code has “EVA” in the 11<sup>th</sup> - 13<sup>th</sup> position, the vehicle is equipped with CAL emissions.
- If the 11<sup>th</sup> – 13<sup>th</sup> position does NOT have “EVA”, then inspect the 18<sup>th</sup> digit position.
  - If the 18<sup>th</sup> position is “N” the vehicle is equipped with 50 State emissions.
  - If the 18<sup>th</sup> position is “L” or “-” the vehicle is equipped with FED emissions.

The screenshot shows the 'NFA010 Nissan FAST for Windows' application. The 'VIN-Code' field is populated with '3N1AB7AP7GY-208589'. The 'Model' field is populated with 'BDSALGZB17EUA-N--'. The '11th-13th position' callout points to 'EUA' in the model code. The '18th Position' callout points to 'N' in the model code. The table below is empty.

No	Part Code	Qty	Part Number	Description
