Low Temperature Coolant Pump Fault Present (POC4700)

Binder - Advanced Technical Information
This ATI replaces ATI Group 9, #1618,
dated 10-21-2016.

Vehicle Type: **Cayenne PHEV**

Model Year: **2015-2016**

Customer Concern: The customer observes a MIL. (Please note: Often, this failure mode is not accompanied by other unwanted behavior.)

Technical Concern: The technician confirms the MIL and notes POC4700 is present in the high voltage battery.

Service Information: PCNA is aware of this issue. A bad ground has been found in a number of cases. The service recommendation is to check ground continuity and replace the electric water pump and the electric water pump relay, if necessary.

As always, be sure to document the repair completely in PQIS.

For this repair, please code the "cause" as follows:

Cause Location: 19450 Additional coolant pump
Cause Symptom: 1611 No function
