

# Warranty Policies and Procedures Bulletin

**Audi Warranty**

**Number: AWA-17-04**

**Subject: Extended Warranty Coverage for ABS Control Module Software**

**Date: Feb 16, 2017**

**Dealers: U.S., Puerto Rico**

This document modifies the Audi Warranty Policies and Procedures Manual.

For certain 2009 model year A3 vehicles repaired by Safety Recall 45F5, the following warranty extension is applicable.

**Effective Reception Date: Feb 16, 2017**

## **ABS Control Module Limited Warranty Extension**

Should there ever be an issue with the ABS control module after Safety Recall 45F5 is performed, Audi will cover replacement of the ABS control module if certain, specific fault codes are present at the time of diagnosis.

Be aware that other conditions (unrelated to the issue described in this bulletin) may cause the ABS system warning light in the vehicle to illuminate. Customers should be prepared to cover diagnosis and repair costs associated with these unrelated conditions.

This warranty extension will not cover damage or malfunctions caused by outside influence (such as damage due to an accident, vehicle misuse, or vehicle neglect), nor will it cover repairs that are (1) necessary for proper diagnosis of these other conditions or (2) required to bring the vehicle up to factory specifications.

## **Diagnosis Procedure**

Refer to Technical Service Bulletin #2046907 for the applicable procedure.

## **Vehicle Eligibility**

To determine if a vehicle is eligible for the ABS Control Module Limited Warranty Extension, check the VIN in *ElsaPro* >> *Vehicle Data*. If the warranty extension is applicable to the vehicle, the “Warranty Key” section of the “Vehicle Data” screen in *ElsaPro* will be populated with Warranty Key U30.
