

## Technical Information Bulletin

---

**E205**

### Section

Engine

---

### Subject

PACCAR Genuine Filter Part # 2047411PE superseded by Part # 2151728PE

---

### Release Date

10/6/2017

---

### Action

#### INFORMATION ONLY

Dealers should be aware of a part supersession as described in the Background section below. Purpose of this bulletin is to alleviate any concerns with product in the field.

---

### Background

PACCAR's supplier of the PACCAR MX oil filter wants to implement a new filter design as quickly as possible. The reason for the part supersession is related to installing a new filter during a maintenance event. If the filter is not aligned properly and forced into the module, the center tube could break in the old part number filter. Factory installed filters are good. This issue only has the potential of happening during the replacement/installation during a service/maintenance event.

#### NOTE

This is NOT a campaign. There is no functional issue with the existing parts.  
Do NOT remove filters from vehicles.

See the attached PPD bulletin in the attachment section below.

## Description

PACCAR Genuine Filter Part # 2047411PE has been superseded by Part # 2151728PE

---

## Release Date

10/6/2017

---

## Introduction

### Information Only

PACCAR's supplier of the PACCAR MX oil filter would like to implement a new filter design as quickly as possible. The part supersession is being expedited to promote the installation of a new filter part # 2151728PE during a maintenance event.

If the filter part #2047411PE is not aligned properly and is forced into the module, the center tube could break upon installation during a service/maintenance event.

Factory installed filter part #2047411PE are not at risk of failing.

---

## Resolution

Dealers should be aware of a part supersession. Purpose of this bulletin is to alleviate any concerns with product in the field.

### NOTE

This is NOT a campaign. There is no functional issue with the existing parts. Do NOT remove filters from vehicles.

See the attached PPD bulletin in the attachment section below.
