

PRODUCT UPDATE **INTRAAX® AAT Air Spring Pedestal**

LIT NO: P26016

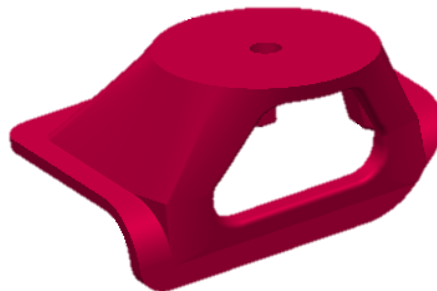

DATE: October 2017

Hendrickson Trailer Commercial Vehicle Systems announces a change to bolt-on air spring pedestals on INTRAAX® AAT integrated air suspension systems with a 13.5-inch or 14-inch ride height.

Previously, the bolt-on pedestal was a fabricated and welded design. The new bolt-on air spring pedestal features a cast design, which helps reduce weight. Installation and hardware for the new cast pedestal remains unchanged.

Fabricated & Welded Pedestal (Old)

Cast Pedestal (New)

All new shipments of INTRAAX AAT models with a 13.5-inch or 14-inch ride height will be equipped with the new cast pedestal design. The aftermarket bolt-on pedestal kit part number, S-32164-1, remains unchanged; however, the kit will be supplied with the new cast pedestals as shown in the illustration above.

INTRAAX AAT models with 15-inch through 19-inch ride heights will continue to use the fabricated and welded air spring pedestal design.

As always, Hendrickson is committed to supplying innovative products that enhance the value, serviceability and lifespan of your vehicles. Please contact Hendrickson Trailer Commercial Vehicle Systems if you have any questions about this change at 1-866-RIDEAIR (743-3247) or visit www.hendrickson-intl.com for more information.

Call Hendrickson at **330.489.0045** or **866.RIDEAIR (743.3247)** for additional information.
