

Pandora® Not Working on the ODMD™ Using an iPhone with iOS 11

AFFECTED VEHICLES

2013–17 ILX, 2013–17 MDX, and 2013–18 TLX

We're currently looking at an issue that when connected to *Bluetooth*® HandsFreeLink® using an iPhone with iOS 11, Pandora doesn't work on the On Demand Multi-Use Display™ (ODMD). We think this may be due to some changes made to the *Bluetooth* stack on iOS 11.

If you get a vehicle in your shop for this issue, be aware there's nothing you can do about it at this time. So, don't try replacing the head unit or HFL unit; it won't make a difference. We'll let you know when we have a solution.
