

Maserati Technical Bulletin

Date: November 29, 2017
Bulletin No. MAS001386 – Gateway ECU
S/W Update – Version 27.00
Service Campaign: 361
Supersedes: N/A
Section: Electrical, Gateway ECU

MASERATI

MODEL: Maserati GranTurismo and GranCabrio

MODEL YEAR: 2018

SUBJECT: Gateway (NGW) ECU Software Update

DESCRIPTION

Maserati GranTurismo and GranCabrio MY 2018 vehicles are subject to Service Campaign 361, that involves updating the software for the Gateway (NGW) ECU. This software will update the conversion algorithm used when converting from mph to km/h.

When a desired speed is set in the speed limit warning alert (Fig.1), if the driver decides to switch the setting from mph to km/h, the speed limit warning could chime because the conversion changed the speed from what was originally entered.

PROCEDURES

1. Check in ModisCS+ to determine if the vehicle is involved in this Service Campaign and if this campaign was not previously performed.
2. Using the MD/MDEVO, check the current software level in the Gateway ECU. If any version other than **27.00** is present, you must download version **27.00**.
3. The procedure is complete.

Warranty Information:

- Campaign Number 361
- Warranty Code 23
- Defect Code 063
- Component Code 8.53.105
- Operation Code 8.53.105.9 (0.4h)
