Title: EZ-Tech Download Center

Applies To: All EZ-Techs

CHANGE LOG

Dealers: Please refer to the change log text box below for recent changes to this article..

11/30/2017 - Added NEW release for Diamond Logic Builder 15595 Database 268.
 11/27/2017 - Added NEW application to prevent the Navistar Launcher to "Auto Start" when the computer is turned "ON" (E18a).
 11/17/2017 - Removed PSI PowerLink v2.0 (BETA) and Added PSI PowerLink v1.3 (Production). Also added NEW Snap-On Torque Data Export Tool and DLC Fleet Tool (same version, new expiration date: 12/15/2018).
 11/16/2017 - Added NEW releases for Merito Wabco Toolbox 12.5.1.0 and Adobe Flash Player 27.0.0.187

DESCRIPTION

The software update process is being done automatically by the "Symantec Altiris Client" on your computer. When the update is too large to be pushed out, a **SPLASH SCREEN** will appear on your computer to let you know that an update is needed also information on how to get the update will be displayed as well.

If the update is considered **CRITICAL**, the splash screen will continue to show up until you perform the update process on your EZ-Tech computer.

If you have not gotten an update needed through the Altiris Agent then you can download the update on demand using the links provided below.

NOTE: Please try to download from link #1 first. If you are having issues downloading from link #1 then try link #2.

NOTE: To properly login into our Navistar Teamsites Portal (Link # 1), please keep in mind the following

For more detail information on how to login into our website....click [HERE](#)

Step 1

Step 2

IMPORTANT NOTES:

- (1) ALL programs shown below will need to be run logged into the "EZTechUser" (Default User Account). You don't need administrator rights to do any installation. All programs will install using our "administrator password". If you changed the administrator password, certain programs won't run.
- (2) ALL NEW **Windows 7/10 EZ-Techs** are up to date and ready to use on the field. Please do NOT update unless you run the EZ-Tech Updates Tool and you are told to do so.

E16	HeRo (Health Report) Software Windows 7 or 10 only!  Chassis and Engine Health Report Software  2017 Navistar, Inc. All rights reserved	11/02/2017 NEW!!	Health Reports	This package will install the new Navistar HeRo (Health Report) Software on your supported EZ-Tech® computer. It will also attempt to download the license on your computer if your network has access to our licensing server. The new HeRO (Health Report) Software will NOT work with Movimento (Nav-Link/Nav-COM) or IC4 Adapters. IMPORTANT NOTE: The software requires a valid license to work as other Navistar applications like DLB, NED and NavKal. If you open the HeRo Software and you are asked for a license, please download and then execute the following program: Click Here For additional help, please open a case file with the EZ-Tech Support Group.	Click Here	Click Here
E17	Navistar EZ-Tech® Launcher v4.3.0.11 Windows 7 or 10 only!  Software Sunset: 12/04/2017	08/18/2017	Health Reports	This package will install the Navistar Launcher software ONLY on your supported EZ-Tech computer. The Navistar Launcher "Health Report" feature will NOT work with Movimento or IC4 adapters. IMPORTANT NOTE: For more information about this release please review IK2700079.	Click Here	Click Here
E17A	All-Makes Diagnostics (eTechnician™) and Service Information (TruckSeries) for the EZ-Tech® computer ONLY. Current release: 1.3.6436.25002 Windows 7 or 10 only!	08/22/2017		After installation, eTechnician must be licensed before it can be used. This will require you to claim your license key. To claim your location's license key (one per location), you must be a Manager, Director, or V.P. for your dealership as defined in the Employee Registration System.	Click Here	Click Here

	 IMPORTANT: All technical support for eTechnician and TruckSeries will be managed by Nexiq and Mitchell1 respectively.		Click the link below to authenticate your User ID and claim your license key: Here After you claim your key, the database will be updated with your User ID, date and time stamps. Each key can be used to install eTechnician on up to five EZ-Tech computers at the same physical location. The dealer's account will be debited through the Revision Service program even if the license keys are not claimed. If you experience issues with activating eTechnician, please start a Service Tool case file using the link below: Here Please do not create an EZ-Tech case file. WARNING: Dealer's responsible to keep a record of the computer name & serial key provided when the software was activated. If the computer is reimaged, having this information will facilitate the reactivation process of the license.		
E18	EZ-Tech Navistar Launcher Removal Tool Windows 7 or 10 only! 	03/13/2015	GUI Replacement This package will REMOVE the Navistar Launcher application and the registration information from your computer. IMPORTANT NOTES: Please use this package only when you cannot use the Navistar Launcher due to a .NET error. After using this tool, you will need to install the application again using the links on E17.	Click Here	
E18a	EZ-Tech Navistar Launcher StartUp Removal Tool Windows 7 or 10 only! 	11/27/2017 NEW!!	GUI Replacement This application will prevent the Navistar Launcher to Auto Start when the computer is being turned "ON" or when the computer restarts. The software will not be removed, and the application shortcut will remain on the computer's desktop.	Click Here	
E19	Diamond Logic Builder Diamond Logic Builder Version: 15595 Database: 268 (Latest available!) Windows 7 or 10 only!	11/29/2017 NEW!!	Body Builder This package will install the NEW version of DLB software on your EZ-Tech. The new DLB version does not rely on Java Web Start when launched. It includes	Click Here	Click Here

				an embedded version, so say good bye to the “Unable to Launch” error message. To install this package just double click the executable and wait for the completion message. IMPORTANT NOTE: This new version of DLB supports Java 7. However, other software still requires the use of Java 6u27. Please do not update the version of Java from your computer at this time.	
E20	Cummins DESA (Dynamic Engine System Analysis) Version: 1.7.0 Windows 7 or 10 only! 	10/24/2016	Engine	This program will install the software DESA by Cummins on your EZ-Tech computer. Please install the software if requested by Cummins Tech Service to diagnose the Aftertreatment System. IMPORTANT NOTE: The DESA application requires a valid license to work. The license is available directly from Cummins. Open the application and click on "Help" for additional information on how to request a new or replacement license. If you already have DESA 1.5.0, please run the UPGRADE installation package. This is 12MB in size only. Upgrade from 1.5.0 to 1.7.0: Here	Click Here
