Subject: Appropriate Customs Values for parts returned from the network

Please note that with the New Modis system components are automatically assigned a customs value equal to 30% of their purchase value on the printouts of the **PARTS RETURN FROM NETWORK documents (packing lists and proforma invoices)**. This is correct and is similar to the old Modis system.

However, for **COMPLETE ENGINES, COMPLETE GEARBOXES, NITs and HVB BATTERIES** that have to be returned to the factory because they are faulty; customs values that correspond more closely to the content of these components must be **DECLARED** on the proforma invoices and packing lists.

For this reason, please write the following values for these non-operational components for customs purposes (SFD) on the proforma invoice and packing list:

➤ 12 CYLINDER COMPLETE ENGINE	€ 10,000.00
➤ 8 CYLINDER COMPLETE ENGINE	€ 8,000.00
➤ COMPLETE DCT GEARBOX	€ 3,000.00
➤ COMPLETE NIT	€ 800.00
➤ HIGH VOLTAGE BATTERY PACK	€ 20,000.00

Thank you for your co-operation.
