Subject: 2018 Outlander PHEV – Required Service Tools

The exciting new 2018 Outlander PHEV will soon be arriving at your dealership! To ensure your technicians have the necessary tools to properly diagnose and repair this unique vehicle, the Outlander PHEV tool kit will begin shipping to your dealership during the week of 11/27/2017. This required tool kit, Part# PHEVTOOLKIT will include:

Part Number	Description
MB992935V	Pressure Gauge Unit
MB992937V	Hose (6mm)
MB992938V	Air Pump
MB992939V	Plugs (2)
MB992942V	Cover Service Plug
MB992944V	Harness Cover Front
MB992946V	Cover Drain Plug
MB992948V	Nipples (2)
MB992915V	Electric Insulation Sheet
MITSKT12	12mm insulated Socket
MITEXT6	6" insulated extension
MITMAG18	18" Magnetic pickup tool

The PHEV tools will complement the i-MiEV tool kit you previously received – most of PHEV kit should be stored in the i-MiEV tools storage bag (Part# 561987). The only exceptions are the Pressure Gauge Unit (MB992935V) and Electrical Insulation Sheet (MB992915V), which should be stored in an appropriate location for fragile items.

Please ensure your technicians have taken the PHEV Technical Training course (PHEV) to make sure they are familiar with the risks and unique service requirements of PHEV vehicles.

These tools were thoroughly researched to ensure a cost-effective solution that will assist your technicians in the proper repair of vehicle systems, and maintain a professional and efficient workshop.

The price of the PHEV Tool Kit is \$1,750.00 + tax. It will be billed to your dealership on your monthly account statement.

These tools will provide your technicians the **Right Tools For The Job** of building a core of devoted customers – it can also be considered an investment in the future success of your business.

If you have any questions, please contact your District Parts and Service Manager.

Sincerely,

MMNA Fixed Operations
