

Technical Information Bulletin

T003

Section

Automated Transmission - 27

Subject

New Special Tools for PACCAR and Eaton Endurant Transmissions

Release Date

12/13/2017

Chassis Affected

All chassis with either the PACCAR Transmission or the Eaton Endurant Transmission

Action

PACCAR added the special tools required to diagnose and service the new PACCAR and Eaton Endurant Transmissions to the PACCAR Powertrain Special Tools list. To keep dealer costs low, dealers will source the tools directly from K-Line. Dealers have six months from the time of this posting to acquire the tools from K-Line. After the six month grace period, PACCAR will conduct tool audits at dealer locations. Dealers should prioritize acquiring the following tools first as they are needed to diagnose and exchange transmissions (PACCAR recommends placing orders for these as soon as they come available on the K-Line website):

- Transmission Jack Adapter Plate (part number RR1067TR)

- Clutch Installation Tool Kit (part number RR2000CL)
- Breakout Box with 74-Way EDA (part number RR1029TR)
- 3-Way EDA (OSS and FPS) (part number RR1060TR)
- 20-Way Eaton Diagnostic Adapter (part number RR1030TR)
- Endurant Mechanical Diagnostic Kit (part number RR2011TR)

Dealers can order tools directly from the K-Line website. Please note some tools on the list may be delayed in posting the K-Line website. For these, contact K-Line through the “Contact Us” feature on their website.

The [PACCAR Master Powertrain Tool list](#) has been updated to include the PACCAR Transmission tools.
