

Warranty Communication

Audi Warranty

Number: AWC-17-22

Subject: "Owner's Manual Disclosure" document added to IN-FORM tool

Date: June 16, 2017

Dealers: U.S., Puerto Rico

This document conveys general
Warranty information.

Dear Dealer Partner,

As you are aware, the service delivery confirmation step in the IN-FORM repair validation process for any vehicles receiving an Approved Emissions Modification (AEM) involves downloading and printing documents (including a receipt and updated EPA label), and providing them to customers. (Note: This information will not print from the service delivery confirmation step for NON-customer-owned cars.)

Beginning on Friday, June 16th, there will be an additional disclosure document added to this process that will appear in the IN-FORM tool called the "Owner's Manual Disclosure". A copy is attached for your reference.

Because the owner's manual and certain other in-vehicle literature are original materials, they may contain references to "ultra-low emissions" "ULEV", "clean diesel", prior emissions standards, and similar terms. It is important that we now provide this disclosure to customers as an update.

Copies of this document will also be included in the package of materials you receive from Auburn Hills for vehicles that you purchase to be remarketed. We ask that you insert the document into the owner's manuals for all vehicles prior to resale.

Thank you for your continued support and attention to these important details.

Questions or concerns may be directed to Audi Warranty at 866.677.2834 or AudiWarranty@audi.com.

Supplement

PLEASE INSERT THIS DOCUMENT IN THE OWNER'S MANUAL FOR YOUR VEHICLE

This vehicle was subject to a service campaign as a result of a determination by the Environmental Protection Agency and California Air Resources Board that certain TDI vehicles do not comply with applicable emissions regulations. The owner's manual and certain other literature regarding the vehicle are original materials and therefore may contain references to "ultra-low emissions" "ULEV", "clean diesel" prior emissions standards, and similar terms.

Please refer to the Customer Booklet titled "Important Information About Your TDI Audi" for disclosures concerning your vehicle's post-modification vehicle emissions. The Customer Booklet for your vehicle is available for download at www.audidiesellookup.com.
