Premium HDD Navigation Gracernote Database Update

Introduction

Toyota models equipped with the Premium HDD Navigation (AVN/AW-EMM) system will periodically require an update to the Gracernote® database. Gracernote® includes detailed information for songs (genre, artist, song title, album name, etc.). The Gracernote® update will be included on the USB Drive Navigation Map Update SST. A Gracernote® update **MUST** be performed **BEFORE** a Navigation Map update. A Navigation Map update is **NOT** required to complete the Gracernote® update. Use the process described in this bulletin to perform the update.
