

91 Audi connect myAudi pin not saved for stored online destinations

91 17 63 2047433/3 December 6, 2017. Supersedes Technical Service Bulletin Group 91 number 17-38 dated July 27, 2017 for reasons listed below.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
A6, A7	2016 – 2017	All	MIB2 High

Condition

REVISION HISTORY					
Revision	Date	Purpose			
3	-	Revised Service (Updated nomenclature in Required equipment section and Step 4)			
2	07/27/2017	Revised <i>Required Parts and Tools</i> (Updated part number) Revised <i>Service</i> (Updated procedure) Revised <i>Warranty</i> (Removed Labor Operations and Diagnostic Time)			
1	04/11/2017	Initial publication			

The vehicle is a MY2016 or MY2017 A6, A7, S6, S7, or RS7 and the customer states that when retrieving the stored myAudi online destinations, the myAudi PIN (Figure 1) is not saved and must be entered each time after the vehicle has been switched off for a long period of time. Additionally, the customer's vehicle is equipped with MMI Navigation plus (MIB2 High; PR code "7UG").

Technical Background

The condition is the result of an MMI software bug and can be fixed by updating the MMI software. The software bug only prevents the myAudi PIN from being stored in the navigation area of the MMI menu. The myAudi pin is saved in the Audi connect menu for accessing custom news feeds.

If the myAudi PIN is also not being saved in the Audi connect menu, then it is possible the customer's phone is not paired via Bluetooth to the MMI at the time the PIN is being entered. The storing of the myAudi PIN is secured with the MAC ID of the customer's Bluetooth phone at the time the myAudi PIN is stored. This only applies if a phone was paired at the time the myAudi PIN was originally stored in the MMI.

For more information see TSB 2036575: 91 MIB & MMI3G+ Bluetooth security profile for voice training, stored contacts, navigation favorites, and myAudi PIN.

Production Solution

New MMI software was introduced into Series Production from week CW45/16.

Service

The service solution is to update the MMI software to SW1062 for MY16 and SW0924 for MY17 to fix the myAudi PIN issue.

UNote:

This update can only be applied to vehicles built prior to CW 45/16.

Required equipment:

- ODIS Tester
- SVM code MI2HNAR0539C7 (MY16) or MI2HNAR3324C7 (MY17)
- Software update instructions (see step 3 below)
- MIB2 High Software Update on SD Card (see *Required Parts and Tools*) OR
- Blank SD card to download the software update files (see step 2 below)

Time to complete update:

• Approximately 90 minutes (includes S/W update and SVM work)

All rights reserved. Information contained in this document is based on the latest information available at the time of printing and is subject to the copyright and other intellectual property rights of Audi of America, Inc., its affiliated companies and its licensors. Repair procedure:

1. Verify that the customer's MMI requires the software update by going to the *Main Menu >> Setup MMI >> Version Information* (Figure 2).

Time	Menu ∫ Setur	o MMI			
Set	Setup MMI 🛨 Version information				
	Software version:				
	MHI2_US_AUG11_P0533				
Ч	Navigation database overall version:				
	V03959801GC 0035 NAR 2015				
	Navigation database country versions				
	SIM	1 Google			

Figure 2. MMI Version Information.

2. Obtain the SD card from the parts department (see *Required Parts and Tools*) and follow all instructions in TSB 2047812: 00 SD Creator: How to setup and use the SD Creator for obtaining vehicle software updates via the MirrorServer.

Tip: Typical setup time to download the data and have a working SD card is about 1-2hrs depending on network speed. Prepare the SD card long before starting the repair.

- 3. Then follow all instructions in TSB 2047576: 91 MIB2 Software Update Instructions.
- 4. Test the functionality of the MMI system.
