Road test mileage in

▶ **All items must be completed prior to customer delivery by an Audi technician**

▶ **Audi recommends using an Audi approved battery charger to prevent excessive battery discharge during inspection**

▶ **All PDI function tests must be run in Guided Fault Finding (GFF) only. Do not use Guided Functions for any PDI related test as these will not be uploaded to the Paperless Server. Refer to the Special functions tab of ODIS Diagnosis for using GFF for PDI function tests.**

▶ **For items marked with *, please refer to the PDI Technician Reference Document posted on ServiceNet for additional information**

▶ **For items marked with **, follow instructions for stock inventory vehicle**

Vehicle Preparation

☐ Check Elsa for open campaigns and updates

☐ Deactivate vehicle transport mode*
This step must be performed with the **engine off** and ignition on

☐ Set adaption channel to enable CD Ripping using Guided Functions (if equipped with NAV)*

☐ Set service reminder*

☐ Perform any open campaigns*

☐ Set the service intervals to 10k instead of 5k during PDI or existing 2017 vehicles that are set incorrectly

1. Click on the "Special functions" tab

2. Scroll down to 'Maintenance'

3. Select the 17 - inspection with oil change - 10,000 miles, USA function test

4. Perform the function test, but make sure you select "USA" as the country variant and when the question "Which service display should be reset?" comes up, select #2 (Oil service display and inspection service display).

5. Then the MMI® indicator should now properly display the following values

   – Next oil service in 10,000 miles / 365 days

   – Next inspection service at 20,000 miles / 730 days
