Retaining Climate Control Settings when using Remote Start

Model(s)	Year	Eng. Code Trans. Code		VIN Range From	VIN Range To		
Tiguan LWB, Atlas	2018	All	All	AII	All		

Technical Background

The climatronic/climatic system will not retain settings when using the remote start unless AW08 is programmed to do so.

Service

To program the Climatronic/Climatic system to retain the last settings for remote start

- Select control module OBD for address word 08 (AC control module).
- Select adaption and scroll down the list to "Remote start function, interior climate control status" and select the empty box under entry (Figure 1).
- Select "Remote start function with last set value active" and then select apply at the bottom left corner of the screen (Figure 2). Apply selection box will appear once remote start function is selected.

Now when the remote start system is activated the last settings active for the air conditioning/heater will be active (Figure 3).

i Tip:

Level settings can also be changed for the ventilated/heated seats, and defrost.
