Maintenance Items for Customer Consideration

During frame replacement, it may be advantageous for you to have other maintenance and repairs performed. Examples include:

- Shocks
- Drive Belts
- Brake Pads/Linings
- Ball Joints/Tie Rod Ends
- Etc.

Note:

- Quantities and individual components can vary slightly based on model configuration (e.g. 3UR-FE, 2UZ-FE, etc.).
- Parts provided under the campaign are called out accordingly.
