

No.: 17 TS-8
April 6, 2017

TO: Service Locations

FROM: Service Systems Development

SUBJECT: **Davco 485/487 Frame-Mounted Fuel Water Separator**

ISSUE

Beginning February 20, 2017, the Davco 482 frame-mounted fuel filter will no longer be offered on new truck builds and will be replaced by the new Davco 485/487 frame-mounted fuel water separator. The 485 housing is specific to the New Cascadia but the new and improved element contained in the 485 will also be used in the 487 which will be offered on all Freightliner and Western Star chassis produced after February 20, 2017. The new 485/487 filter is **NOT** backwards-compatible with the current 482 housing. The 482 filter will continue to be offered for service.

Fuel Pro 482

Fuel Pro 485/487

ORDERING INSTRUCTIONS

The 482 and the 485/487 replacement filter kits can be ordered through the aftermarket PDC network using part numbers listed below.

- **482 replacement filter kit:** **DDE A0000903651**
- **485/487 replacement filter kit:** **DDE A0000905051**

ADDITIONAL INFORMATION

The new 485/487 filter will **NOT** fit in the 482 housing. If a customer is interested in the benefits of the improved filtration of the 485/487, they must replace the 482 housing with the new 487 housing.
