VST Operation Number	Description
23428-2	Fuel tank install-remove/replace

DTC Diagnostic Trouble Codes

Text

DESCRIPTION:

This TJ is to inform the market in cases where a fuel pump unit in the fuel tank needs to be replaced. Additional parts needs to be ordered due to an updated method.

SERVICE:

If a replacement of the fuel pump unit in the fuel tank is performed, an updated method in VIDA is released.

Additional parts (1 clip part number: 31478993 and 1 part number 999574 cable tie) needs to be ordered to be able to perform the method as stated above, see attachment.

This is to ensure that the harness is positioned correctly towards vehicle body to prevent chafing of harness.

VEHICLE REPORT:

Yes, please submit a Vehicle Report if the service solution described in this TJ has no effect. Use concern area "Vehicle Report" and sub concern area "Support not needed", use function group 2331.
