

TAILGATE ACOUSTIC WARNING NOT LOUD ENOUGH

MODEL

F60 (Cooper, Cooper S Countryman)

SITUATION

Automatic tailgate activation is accompanied by an acoustic warning signal indicating the tailgate is in motion.

The warning signal has been reported to be not loud enough to be effectively heard in many environments.

CAUSE

Original design concept.

CORRECTION

Reprogram vehicle.

PROCEDURE

1. Program the vehicle with ISTA/P 3.60.4 or ISTA Next 4.03.30.

F60 (Countryman)	Target integration level: F056-16-11-505 or higher
-------------------------	---

Note that ISTA/P will automatically program and code all programmable control modules that do not have the latest software.

Always connect a MINI approved battery charger/power supply ([SI B04 08 09](#)).

For information on programming and coding with ISTA/P or ISTA 4, refer to CenterNet / TIS / Technical Documentation / Diagnostics and Programming / Programming Documentation.

WARRANTY INFORMATION

Reimbursement for this Service Action will be via normal claim entry utilizing the following information:

Defect Code:	0054490100	
---------------------	-------------------	--

Vehicle Programming and Coding

Labor Operation:	Labor Allowance:	Description:
00 64 925	8 FRU	Programming and coding (includes connecting an approved battery charger/power supply and performing a vehicle test) (Plus work)

When ISTA/P or ISTA 4 automatically programs and codes all the vehicle's control modules that "currently do not have" the latest software and if one or more control module failures occur "during" this programming procedure:

- Please claim this "consequential" control module-related repair work under the defect code listed in this bulletin with the applicable KSD2/AIR labor operations.

Other Repairs

Control module failures that occurred “prior” to performing this programming procedure:

- When “covered” under an applicable limited warranty, claim this control module-related repair work using the applicable defect code and labor operations in KSD2/AIR.
