Limited Service Campaign H0F – Remedy Notice
Certain 2005 – 2010 Model Year Tacoma
Certain 2007 – 2008 Model Year Tundra
Certain 2005 – 2008 Model Year Sequoia
Frame Corrosion Resistant Compound (CRC) Application

As part of the H0F Corrosion Resistant Compound (CRC) program, your dealership will receive a new set of the Vaupel HSDR 3300 spray guns to replace the old set of spray guns used for prior CRC campaigns and currently in your possession. **You should use this new set of spray guns to conduct the H0F and any future CRC campaigns.**

The old set of spray guns may (or may not) still be operational. Regardless of the condition of the old set of spray guns, to assure your dealership's compliance with state and local laws:

- (1) Do **not** use the old set of spray guns to apply CRCs and
- (2) Do **not** use the old set of spray guns for any other purpose.

In order for your dealership to demonstrate compliance with (1) and (2), it is recommended that you remove the old spray guns from your premises so that there is no potential for these guns to be used. Disposal of the old guns in accordance with all applicable laws would be one acceptable method for removing them from your premises.

If you have any questions, please contact your FTS (Field Technical Specialist) or DSPM (District Service & Parts Manager) for assistance. Thank you.
