- Technician Training Requirements have been updated to reflect amendments to the post-repair sign off and validation procedure.

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Toyota. All Toyota dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly, technicians performing this repair are required to currently hold at least one of the following certification levels:

- Certified Technician (any specialty)
- Expert Technician (any specialty)
- Master Technician
- Master Diagnostic Technician

Final repair must be signed off and validated by a MDT, Shop Foreman, or Service Manager using the Frame Replacement Inspection Form.

Refer to the UPDATED Dealer Letter on TIS for additional information.

Thank you for your cooperation.
