SUBJECT: **Meritor Wabco Bench Programming Kit DWA4008509600**

GENERAL INFORMATION

In an effort to simplify availability to the DTNA service network, the special tools group in cooperation with the Meritor Wabco has released the Meritor Wabco Bench Programming Kit (DWA4008509600) through the DTNA PDCs.

Benefits of Bench programming kit

- ECUs can be programmed prior to installation on a vehicle – the vehicle does not need to be present to be serviced
- Suitable for programming ECUs for vehicles without J1939 communication to ABS ECU - saves the dealership time to purchase pre-programmed ECU from Meritor
- Avoids interruption of programming by other J1939 devices (high J1939 bus load) – saves dealership troubleshooting time during ECU programming
- Suitable for programming OnGuard radars
- Cable/adaptor design allows for expansion to future products (i.e. mBSP)

What the kit contains:

1. Programming Adapter
2. 3m Standard Programming Harness (Cab ECU and Frame Basic ECU)
3. 6" Adapter (Frame Advanced ECU and OnGuard)
4. 12VDC power supply cable
