---

Attention: Vehicle Owner:

Subject: **Field Service Campaign 17M1**  
**GHG17 DD15 Model Year 2016 Diesel Particulate Filter (DPF)**

Detroit Diesel Corporation (DDC) has determined that some certified Model Year 2016 GHG17 DD15 engines will require programming of the MCM, ACM, CPC, and TCM (if equipped with a DT12™ transmission). Any model year 2015 or 2016 vehicle manufactured between May 1, 2015, and December 19, 2016, and running older software and fuel maps may need the modules reprogrammed which will prevent performance issues that may result in customer dissatisfaction.

Records available to us indicate that your vehicle has one of the eligible engines. Instructions for this Field Action have been sent to your local Detroit Diesel Authorized Repair Facility and the labor time required to perform this software update is approximately **0.7** hours.

Please contact a Detroit Diesel Authorized Repair Facility to arrange to have the Field Action performed. To locate an authorized facility, search online at [www.detroitdiesel.com/locations/default.aspx](http://www.detroitdiesel.com/locations/default.aspx).

This service will be completed for you at no charge, prior to **July 26, 2018**, under the provisions of this notice.

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
