

## Garmin MAP PILOT: Freshmap not possible

---

Topic number	LI82.85-P-066557
Version	1
Design group	82.85 Navigation and Communication system (CNS, ICS, COMAND, FleetBoard)
Date	06-19-2017
Validity	NTG 5*2: Model 205, 253 with code 522 (Audio20 NTG5 radio with navigation capability) and code 355 (Preinstallation for navigation retrofit) or 357 (SD card navigation) as of production date 01.10.2015
Reason for change	Remedy adjusted
Reason for block	

---

### Complaint:

Freshmap is not possible if a kilometer reading of 322 (200 miles) is reached within the 60-day period.

### Cause:

The date value is written onto the SD card too late.

### Remedy:

1. Install navigation software update to at least 33.30, 16/37.00, E66.2 in Download Manager
2. Use the SD card in the vehicle (ideally for approx. one day, in order to ensure that the date value is written)
3. Install Freshmap in Download Manager

Notes: Freshmap should not be confused with an entitlement to a free-of-charge map data update! Freshmap is a voluntary service and is intended merely to compensate for vehicle idle times. Freshmap is only possible when new map data material is actually available.

<b>Symptoms</b>
Communication/information / Communication / Navigation / Navigation - Function / Error in map display
Communication/information / Communication / Navigation / Navigation with hard disk / Map update not possible
