VOLKSWAGEN DEALERSHIP COMMUNICATION

To: **Service Manager – Service Director**

Name

Subject: ODIS Service TDI Flash & Takata Airbag Recall

Title

Department

Date: 06.15.17

Colleagues,

All TDI flashes and the Takata Airbag Recall campaign **MUST NOT** be completed during the same ODIS Diagnostic Session. You **MUST** fully complete one campaign, send all GFF Paperless logs and exit the ODIS session before beginning the other campaign. Failure to perform campaign's separately will cause problems updating the FAZIT server in Germany and will delay, if not negate the payment of the emissions modification.

Thank you.

Todd Nurnberger
Manager – Workshop Technology

Frank Deluca
Team Leader – Diagnostic Software Support (DTSS)
