### MODELS: 2016-2017 GEM e2, e4, e6, eL XD Vehicles Equipped with Full Doors

Some GEM vehicles built before 3/10/2017 equipped with full doors have been experiencing water entering the cab. This team tip has been released to help dealers order the correct door seal kit for affected GEM vehicles. Door seal kits are an improved set-up to help keep water out of the cab. The striker kit has an adjustable door striker, allowing the door to be pulled in tighter for a better seal, if necessary.
