Product Improvement Notice - New insert for thumb locks on all series baggage doors

Dear Valued Customer:

Please be advised we are making an improvement to the thumb locks on our baggage doors starting around mid-October. Please note the mid-October date applies to all series baggage doors, except the 08 series, which will receive the upgrade at a slightly later date.

An insert is being added on the front side of the doors to improve the durability and strength of the thumb locks. The durability and strength is enhanced due to the lock engagement with the laminate. The insert also keeps the lock set securely in place.

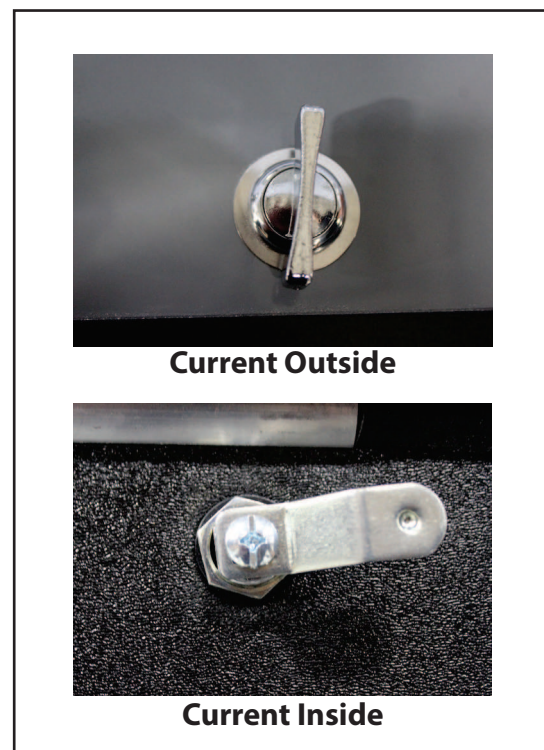

The improvement does not change the installation or functionality of the doors. The only visible difference is a black ring, as shown in Fig. 1.

There is no part number change or price change associated with the product improvement.

If you have any questions about the product improvement to our thumb locks, please feel free to contact me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon

Product Manager
