Product Improvement Notice: Solera® Regal Power Awning Head With Integrated Speaker.

Dear Valued Customer:

As part of our ongoing focus on product improvement, LCI is pleased to announce the late November launch of the new Solera® Regal Power Awning Head With Integrated Speaker.

The Regal speaker head part numbers are:

Drive/White: 711749

Idler/White: 711750

Drive/Black: 711751

Idler/Black: 711762

The new Regal awning head has an encased back, which ensures increased volume and clearer tones. In addition to the improved sound, the new, sleeker Regal head design offers functional benefits as well.

The new style head is designed to set more flush to the sidewall and hide the transition line from head to arm. In addition, the narrow head makes the OEM installation of the upper mounting screws easier. There will be no change in the installation or operation with the new Regal head.

The new Regal head with integrated speaker is not interchangeable with the current Solera power awning head with integrated speaker. If a head needs to be replaced in the field, LCI will continue to carry the original version of the head.

Original speaker head part numbers are:

Drive/White: 342147

Idler/White: 342148

Drive/Black: 342149

Idler/Black: 342150

Original Awning Head With Speaker

New Regal Awning Head With Speaker

If you have any questions about the Regal head with integrated speaker, please do not hesitate to call me or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon

Product Manager
