Product Improvement Notice - Patio Rail Kit Keeper Bases

Dear Valued Customer:

Please be advised our supplier has made an improvement to patio rail kit keeper bases (PN 372715), which has slightly changed the look of the finish on the product.

The new keeper base has been engineered to remove burrs and reduce or eliminate rough edges. There is no change in installation or functionality of the keeper bases. The only change besides the increased smoothness is a more matte finish on the new keeper bases (Fig. 1).

There is also no price change associated with the improvement. This change will be made on a running basis starting immediately.

Please feel free to contact me or your LCI representative with any questions. We value and appreciate your business and partnership.

Sincerely,

Brian Hess
