

PRODUCT UPDATE

UTILITY TRAILER MANUFACTURING CO.

PU-08-008

Issue date: May 24, 2017

Product Update **Hendrickson** **INTRAAX with ZMD Technology**

Hendrickson released a product information letter to announce the availability of additional ride heights on ZMD (Zero Maintenance Damping) technology for INTRAAX AANT 23K integrated suspension systems.

Note: Previously only available for 14-inch ride heights, ZMD can now be specified for AANT 23K models with 15-inch through 17-inch ride heights with standard travel.

If you have any questions regarding the information indicated, please call Hendrickson at 866.743.3247.

Rev A

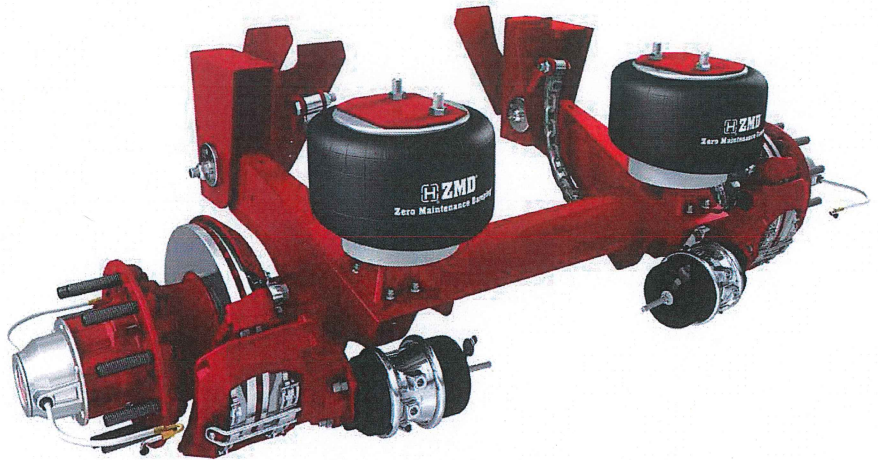

PRODUCT UPDATE INTRAAX® with ZMD® Technology

LIT NO: P26014 Rev: A
DATE: May 2017

Hendrickson Trailer Commercial Vehicle Systems is pleased to announce the availability of additional ride heights on ZMD® ZERO MAINTENANCE DAMPING® technology for INTRAAX® AANT 23K integrated suspension systems. Previously only available for 14-inch ride heights, ZMD can now be specified for AANT 23K models with 15-inch through 17-inch ride heights with standard travel.

The patented ZMD system eliminates shock absorbers and achieves suspension damping with its unique air spring design.

Unlike a shock absorber, which loses damping capacity with age, ZMD air springs provide damping at a consistent rate over the life of the air spring, which helps increase trailer component life and reduce maintenance. ZMD also provides a smoother ride helping to improve driver comfort, ride quality and cargo protection.

Units equipped with ZMD feature long-life down stops, which replace the rebound limiter function traditionally performed by the shock absorber. Hendrickson's exclusive ZMD components feature a 3-year parts and labor warranty.

ZMD ride technology can be specified on new, or retrofitted on existing, INTRAAX AANT 23K 14-inch through 17-inch ride height models with standard travel. Retrofit installation is easy and efficient as ZMD components fit the existing INTRAAX air spring and shock mount structures and use the same mounting hardware.

To receive a valid model number, price and availability for an INTRAAX equipped with ZMD, please submit L602 INTRAAX Ordering Guide to your customer service representative. Hendrickson's ZMD technology for INTRAAX, can be requested by selecting ZMD in the Air Spring section of the INTRAAX ordering guide.

As always, Hendrickson is committed to supplying innovative products that enhance the value, serviceability and lifespan of your vehicles. Please contact us at 1-866-RIDEAIR (743-3247) or visit www.hendrickson-intl.com for more information.

Call Hendrickson at **330.489.0045** or **866.RIDEAIR (743.3247)** for additional information.
