

MODEL: Karma Revero

Date: August 2017

TITLE: Karma Revero Target Software Reading

Priority: All Revero

Applicability: MY17 and MY18 Revero

Market Regions: North America

Purpose: This is a general information bulletin for reading the displayed software targets using Karma Sync

Software levels are not required to match in various modules in the Revero as displayed by Karma Sync. This can be seen in the Vehicle Programming screen, the values are listed in corresponding columns of “Target Software” and “Current Software”.

- If there is a need to verify the correct software level expected in the vehicle, create a TSS case.
- No software is to be updated or changed unless directed by a service communication or TSS case

Karma Automotive Bulletins and service documents are intended for use by experienced and trained Technicians. If you lack the skills, tools, equipment and a suitable workshop for any procedure described in this document, we suggest you leave such repairs to a Karma retailer and service provider. See your service provider for advice on whether your vehicle may benefit from the information contained within this document. The information contained in the Karma Bulletin is accurate at the date of publication. However, Karma Automotive regularly updates technical information. Please check with your Karma Automotive Retailer and Karma Automotive service provider that the bulletin you intend to use contains the latest available information.
