Symptoms

Customers MAY have complaint of dust coming up from ground in non-paved areas.

Issue

Customers MAY have complaint of dust coming up from ground in non-paved areas.

Case Study

N/A

Solution

IF customer wishes to use this Service Solution and parts to MODIFY their vehicle, this will be entirely CUSTOMER PAY for any parts and labor to add on these dust shields.

FTL DLR should reference the attached installation drawing D05-34079-000, if the chassis is a XCM chassis. This will give the part numbers required to modify the vehicle.

FTL DLR should reference the attached installation drawing D05-34079-001, if the chassis is a XCP chassis. This will give the part numbers required to modify the vehicle.

The FTL DLR performing this modification is responsible for inputting a Global Annotation into Parts Pro which shows the new parts installed.
