Flip Seats

We have 2 exciting new products

FW Low Back Flip

You can now order FW low back flip seats. This seat is identical to the FW mid hi flip only with a low back. Unlike the Handiflip, the FW low back flip is compatible with USR belts.

Split Flips

For customers carrying strollers, walkers or other potential "aisle obstructions", we are happy to introduce the Split Flip. You can order the split flip option on any FW flip or GO-ES flips (when available). Designed to be used forward facing, you can flip up either seat cushion on a double seat to create valuable extra space.
