GPOP - Issue Review System

Part Number: 68044411A\$

Part Description: Stabilizer Bar Actuator

Issue Description: Customer comes in with flashing sway bar light and it stays flashing after button reset.

If water intrusion or contact pin corrosion is observed on stabilizer bar actuator connector, please call Bing Guo at cell (248) 500-7355 prior to replacing any components. If there is no answer, please verify whether the 50 Way Wiring Kit (P/N 68210289AA) connector has water damage. The Wiring Kit with water damage or contact pin corrosion should be replaced in the same time. Send both stabilizer bar actuator and wiring kit to QEC. If you do not get a response within 15 minutes continue with the repair.
