Attention: All Kia Service Managers

Kia Motors America, Inc. is conducting a Voluntary Emissions Recall Campaign on certain 2014-2016 MY Kia Forte SULEV vehicles equipped with the 1.8L engine and designed to meet California emissions, manufactured from January 31, 2013 through March 23, 2016 to update the software programming for the Engine Control Module ("ECM"), as the vehicles may not be in compliance with CARB emissions regulations. **NOTE: Vehicles designed to meet Federal emissions are NOT included in this campaign.**

The Technical Service Bulletin (TSB) that provides Vehicle Repair Procedures, Affected VIN Production Range, and Warranty Claim Information will be published on **January 9, 2018**

Enclosed you will find a copy of the owner notification letter and a Q&A Guide for campaign questions, both of which describe the issue. Also enclosed is a supply of Emissions Recall Proof of Correction Cards and Campaign Stickers to cover the number of vehicles retailed out of your dealership (**CA and S177 Dealers Only**). A list of retail Kia Forte owners affected by this campaign can be accessed on WEBDCS after the date of the owner notification. **The owner notification will be mailed on January 16, 2018.**

Please start performing the repairs on any affected 2014-2016 MY Kia Forte SULEV vehicles equipped with the 1.8L engine designed to meet California emissions currently in your inventory to ensure that the ECM programming is updated prior to selling the vehicle to a retail customer.

- Be sure to provide a completely filled out Emissions Recall Proof of Correction Card to each owner upon completion of the campaign for owner use as proof of completion during registration renewal. Instructions for filling out this card can be found in the TSB. It is also required to affix a campaign completion sticker under the hood of the vehicle.

For Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington dealers ONLY:
