## TECHNICAL SERVICE BULLETIN

SUBJECT: SERVICE ACTION: HEADLAMP "WELCOME BLINK"

OPERATION – ICU LOGIC IMPROVEMENT (SA331)

This bulletin provides the procedure to improve the logic of the Integrated Central Control Unit (ICU) on some 2018MY Stinger (CK) vehicles, produced from September 21, 2017 through December 15, 2017, which in very rare circumstances may experience inoperative "welcome blink" of the headlamps. To correct this concern, apply the improved logic to the ICU using the KDS ECU Upgrade function as described in this bulletin. For confirmation that the latest reflash has been applied to a vehicle you are working on, verify the ROM ID using the table on page 2 of this bulletin. Before conducting the procedure, verify that the vehicle is included in the list of affected VINs.

### \* NOTICE

Not completed Recall / Service Action reports are available on WebDCS (Consumer Affairs  $\rightarrow$  Not Completed Recall  $\rightarrow$  Recall VIN  $\rightarrow$  Select Report), which includes a list of affected vehicles.
