Attention: Suzuki Motorcycle Distributor

Dear Mesdames and Sirs :

Re: GSX-R1000L7/L8 and GSX-R1000RL7/L8 Suspension of the sales

Thank you very much for your continuous efforts to increase sales of Suzuki products.

We regret to announce that there is a possibility to implement re-writing of the ECM (Engine Control Module) program of the new GSX-R1000 and GSX-R1000R on the market. We would, therefore, like to ask you to stop delivery of the products to your dealers and to customers until our further notice.

We will be giving you more detailed directions next week, however; please take necessary actions to stop wholesale and retail sales of the products immediately.

We are very sorry for causing inconveniences to you, your dealers and our customers, but, please give us your cooperation.

Sincerely yours,

Masahiro Nishikawa
Executive General Manager
Motorcycle Operations
