RE: Interior Cove Trim

Most of you are familiar with the practice of enriching the interior of a trailer by using one of the (13) available .030 metal colors for the interior cove trim, which also includes covering the spring for the rear ramp door on trailers so equipped.

In the past, United Trailers has been extremely flexible when it came to which color we would use for this feature. Unfortunately, due to rising costs, we are forced to only allow this no cost option in the following colors effective immediately:

White

Black (includes the matte black)

Charcoal

Silver

Pewter

Red

For now, this will remain a No-Cost option, and only allowed using one of the above colors. Any color not listed above is not available for use for the Interior Cove Trim feature.

We apologize for any inconvenience this may present, but we assure you it is unavoidable.

Please direct any questions you may have to your Sales Representative.

Thank You.
