**\*\*\*\*\* Campaign Summary\*\*\*\*\***

Nissan is conducting a Voluntary Service Campaign to inspect and, if necessary, replace the left hand (LH) engine-mounting insulator.

On some of the affected vehicles, the LH engine-mounting insulator may have been manufactured out of specification, and could break. To help prevent this from occurring, Nissan will inspect the LH engine-mounting insulator and replace it if needed at no cost to the customer for parts and labor.

**\*\*\*\*\* What Dealers Should Do \*\*\*\*\***

1. Verify if vehicles are affected by this Voluntary Service Campaign or DBS National Service History – Open Campaign I.D. **PC601**.
2. Dealers are requested to repair any affected vehicles in dealer new or pre-owned inventory to ensure customer satisfaction.
  - **New vehicles in dealer inventory can also be identified using DBS (Sales-> Vehicle Inventory, and filter by Open Campaign).**
    - Refer to NPSB 15-460 for additional information
3. Dealers should use **NTB18-002** to inspect and, if necessary, remedy any vehicles subject to this campaign.
4. Once repaired, dealers should submit the claim, using the claims coding provided, and release the vehicle.

**\*\*\*\*\* Dealer's Responsibility \*\*\*\*\***

It is the dealer's responsibility to check Service Comm or DBS National Service History – Open Campaigns using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary service campaign, which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this voluntary service campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.

**Frequently Asked Questions (FAQ):**

**Q. Is this a Stop Sale?**

A. No.

**Q. Is this a safety recall?**

A. No, but it is important that all vehicles subject to this service campaign be inspected and remedied, if necessary.

**Q. What is the reason for this Voluntary Service Campaign?**

A. Due to some changes made during molding modification, the left hand (LH) engine-mounting insulator may break during normal driving conditions. If the engine-mounting insulator breaks, the engine may descend and make contact with the suspension member, causing abnormal noise.

**Q. What will be the corrective action?**

A. Dealers will inspect the vulcanization mold number on the engine-mounting insulator and, if applicable for specific molding marks. If necessary, the engine-mounting insulator will be replaced based on these inspection results.

**Q. How long will the corrective action take?**

A. This service, which is conducted at no charge to you for parts and labor, could take up to one and a half (1.5) hours to complete if the engine-mounting insulator requires replacement. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

**Q. When will vehicle owners be notified?**

A. Nissan will begin notifying owners of all potentially affected vehicles in **February 2018** via U.S. Mail.

**Q. Are parts readily available?**

A. Yes, parts are only necessary if the inspection of the vulcanization mold number and specific molding marks indicate replacement is necessary. Parts may be ordered on DBS as an SVC order type.

**Q. I did not receive a letter, how can I tell if my vehicle is affected?**

A. Please provide your vehicle identification number (VIN) so that I can check if your vehicle is included in this campaign.

**Q. Is my vehicle safe to drive?**

A. Yes.

**Q. Will a rental vehicle be provided while the dealer is servicing the vehicle?**

A. No. Please check with your dealership for alternate transportation availability.

**Q. I have lost confidence in the vehicle. Will Nissan replace or repurchase the vehicle?**

A. The remedy will fully correct this condition. As the condition will be corrected, there is no basis for repurchasing or replacing your vehicle.

**Q. Is there anything owners can do to mitigate the condition?**

A. No.

**Q. Is there any charge for the repair?**

A. No, the inspection and, if necessary, remedy will be performed for the customer free of charge for parts and labor.

**Q. Will I have to take my vehicle back to the selling dealer to have the service performed?**

A. No, any authorized Nissan dealer is able to perform the voluntary service campaign.  
**For Consumer Affairs:** Please inform us of the dealer where you would like to have the corrective action completed.

**Q. What model year vehicles are involved?**

A. Certain 2016-18 Nissan Rogue (T32) vehicles within a specific production range are affected.

**Q. Are you experiencing this condition on any other Nissan (or Infiniti) models?**

A. No.
