

Browser App Not Showing Up On Display Audio?

AFFECTED VEHICLES

2018 Civic (EX and above) and 2018 CR-V (EX and above)

If you get a vehicle in because the **Browser** app isn't showing up on Display Audio, there's nothing that needs fixing. We didn't include that app in 2018 models. The online owner's manual reflects this.

Pass this info on to the service advisors so they can inform their customers.
