**PITSTOP** — TECHNICAL OPERATIONS

SUBJECT:	(LDWS) MFC VARIANT CODING

This Pitstop provides information regarding the correct "Variant Coding" settings for the Multi-Function Camera (MFC) on some 2017-2018MY Sorento (UMa) vehicles. Both the Lane Departure warning system (LDWS) and the Autonomous Emergency Brake (AEB) system require the use of the camera (A). Refer to the KDS screenshots shown below for the required MFC variant coding settings for the vehicle. <u>Be sure to MATCH every "Item" to the "Setting Value" as shown in the green outlined box that applies to the vehicle.</u>

Item	Setting Value
Vehicle Code :	default
Country Code :	North America
Left/Right hand drive :	LHD
Transmission Type :	Automatic
HBA Option :	NONE
LKAS/LDWS Option :	LDWS
SLIF Option :	NONE
FCW/AEB Option :	AEB (Sensor fusion)
ATTENTION ASSIST Option :	NONE
