SUBJECT:

LDWS VARIANT CODING

This Pitstop provides information regarding the correct “Variant Coding” settings for the Lane Departure Warning System (LDWS) unit (A) on some 2016MY Sorento (UMa) vehicles. Refer to the KDS screenshots shown below for the required LDWS variant coding settings for the vehicle. Be sure to MATCH every “Item” to the “Setting Value” as shown in the green outlined box that applies to the vehicle.
