Service Information

Diagnostic Device Hardware & Windows® **Number: AHW-18-05**

Subject: VAS 6154 & VAS 5054A Genuine OEM Diagnostic Interfaces **Date: Feb. 12, 2018**

1.0 – Introduction

1.1 – General Information

The purpose of this document is to advise you that only ***Genuine OEM VAS 6154 and VAS 5054A*** diagnostic interfaces obtained from the **Volkswagen Tools & Equipment Program**, are supported for use with ODIS Service.

The use of **non-genuine, cloned or "knock-off"** diagnostic interfaces have never been supported by VWGoA, VWAG, Diagnostic Tester Support or on the VAS Diagnostic Tester Platform. These devices have been known to stop and then start working numerous times since the inception of ODIS Service. Due to their intermittent reliability and no quality testing, they are considered unreliable and pose a risk when performing vehicle diagnostics.

With the release of ODIS Service Application version 4.3.3 released on January 24, 2018, all NON-GENUINE diagnostic interfaces may no longer function.

2.0 – Warranty Period

VAS 6154

- The VAS 6154 has a warranty period of 36 months from the date of purchase.
- Warranty exchanges are escalated via Diagnostic Tester Support.
- Any non-functioning VAS 6154 submitted for warranty replacements that exhibit signs of tampering, failed self-repair attempts, physical damage, or are non-genuine devices, are not eligible for replacement.
- Replacements typically arrive within 1-2 business days.

VAS 5054A

- The VAS 5054A has a warranty period of 36 months from the date of purchase.
- Warranty exchanges are escalated via Diagnostic Tester Support.
- Any non-functioning VAS 5054A submitted for warranty replacements that exhibit signs of tampering, failed self-repair attempts, physical damage, or are non-genuine devices, are not eligible for replacement.
